IN MEMORY

From 1973 through 1997, West Virginia has had the honorable distinction of being the state with the lowest crime rate in the nation.

The entire law enforcement community and the citizens of West Virginia should be applauded for the cooperative effort which made this distinction a reality. The 1997 edition of "Crime in West Virginia" is dedicated to those law enforcement officers who have paid the supreme sacrifice in the protection of their communities. The following is a list of all West Virginia officers feloniously killed in the line of duty since 1972.

OFFICE OF THE GOVERNOR

**CECIL H. UNDERWOOD
GOVERNOR**

Greetings From the Governor

We are very pleased to present the 26th edition of *"Crime in West Virginia"*. The publication displays the crime figures reported by the law enforcement agencies within the state of West Virginia. This information is further forwarded to the FBI and is included in their publication *"Crime in the United States"*. Both publications are entirely dependent on law enforcement for thorough, truthful and accurate reporting. This submitted information provides a "crime picture" for the state and the nation and has been utilized by governments, researchers, administrators and developers in designing effective policy and resource use for almost seventy years.

We begin the 21st century in a very progressive manner by embracing the Incident Based Reporting (IBR) system of crime reporting and the technology necessary to make it successful. The new information to be gained by implementing IBR will be invaluable not only to law enforcement and governmental policy makers, but also to victim advocates, economic developers, security companies, correction officials and the list continues. It has been said that you can't manage what you can't measure and the IBR system is the premier method to measure crime.

The 1997 crime figures show West Virginia to have the lowest overall crime rate in the nation for the 25th year in succession. This reflects extremely well on the citizens who reside in West Virginia and on the dedicated law enforcement personnel who serve them.

I applaud West Virginia's law enforcement community for its past service and its contribution of known crime data to the state Uniform Crime Reporting program, and I most heartily support the effort to utilize available advanced technology in making West Virginia a safer and more enjoyable place to live.

Very sincerely,

A handwritten signature in black ink, appearing to read "Cecil H. Underwood", with a large, sweeping flourish extending to the right.

The Honorable Cecil H. Underwood
Governor of West Virginia

Dear Governor Underwood:

It is my pleasure to present to you the 26th edition of "*Crime in West Virginia*". This publication is produced pursuant to Chapter 15, Article 2, Section 24 of the Code of West Virginia.

The 1997 version of the annual report is only possible because of the contribution of our police agencies in submitting thorough and correct information on the crime reported to their individual departments. The progression of crime reporting to Incident Based Reporting (IBR) is indeed a favorable reflection of West Virginia's law enforcement community's recognition of the need to utilize technological advances and the need for further collaboration among WV law enforcement.

I'm sure you join me in complementing our contributing departments for their continued cooperation and their futuristic view.

Sincerely,

COLONEL GARY L. EDGELL
SUPERINTENDENT

INTRODUCTION

The West Virginia Uniform Crime Reporting (UCR) Program is a uniform, statewide method of collecting statistical crime data, under the direction of the Uniform Crime Reporting Section of the Criminal Identification Bureau, West Virginia State Police. Its purpose is two-fold:

1. To provide a consolidated annual report concerning crime in West Virginia and
2. To report state-wide crime statistics from a single agency to the Federal Bureau of Investigation (FBI)

NATIONAL UNIFORM CRIME REPORTING PROGRAM

The counterpart of all state-wide UCR programs is the National UCR Program under the direction of the Federal Bureau of Investigation. This national program was the result of a need for nation-wide uniform compilation of crime statistics. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs of Police. Today the IACP continues to serve in an advisory capacity to the FBI in its operation of the UCR program.

In the last several years, the FBI has been actively assisting individual states in the development of state-wide programs for the collection of law enforcement statistics. Although individual UCR programs may vary from state to state, all state programs must be compatible with the National UCR Program. Presently there are 47 operational state or territorial-level UCR Programs. Crime statistics submitted by individual law enforcement agencies from all fifty (50) state, whether reported through state-level UCR programs or directly to the FBI, are presented annually in the FBI's Uniform Crime Reports publication, Crime in the United States.

WEST VIRGINIA UNIFORM CRIME REPORTING PROGRAM

Taking advantage of the invaluable assistance provided, West Virginia developed its own state-wide program for collection of law enforcement statistics.

PURPOSE AND OBJECTIVES

The fundamental objectives of the West Virginia UCR Program are:

1. Inform the Governor, Legislature, other government officials and the public as to the nature of the crime problem in West Virginia, its magnitude and its trends.
2. Provide the FBI with complete crime data to be included in the National crime report.
3. Provide law enforcement administrators with the best possible data available to help combat individual crime problem areas.
4. Determine who commits crimes by age, sex, race and ethnic origin and by other attributes in order to find the proper focus for crime prevention and enforcement.
5. Provide base data and statistics to measure the workload and effectiveness of West Virginia's Criminal Justice System, to measure the effect of prevention and deterrence programs, and to assist in the assessment of social and other causes for the development of theories on criminal behavior.

DEVELOPMENT

The West Virginia Legislature, in the Criminal Identification bureau Act of 1971, established the Uniform Crime Reporting Statute.

Criminal Identification Bureau Act of 1971

Chapter 15, Article 2, Section 24, Sub-Section i

(i) All state, county and municipal law enforcement agencies shall submit to the bureau uniform crime reports setting forth their activities in connection with law enforcement. It shall be the duty of the bureau to adopt and promulgate rules and regulations prescribing the forms, general content, time and manner of submission of such Uniform Crime Reports. Willful or repeated failure by any state, county or municipal law enforcement official to submit the Uniform Crime Reports as required in this article shall constitute neglect of duty in public office. The bureau shall correlate the reports submitted to it and shall compile and submit to the governor and the legislature semi-annual reports based on such reports. A copy of such reports shall be furnished to all prosecuting attorneys and law enforcement agencies.

The responsibility and authority for collection and dissemination of UCR data was given to the West Virginia State Police. This program became operational January 1, 1972.

REPORTING PROCEDURE

Under the West Virginia UCR Statute, law enforcement agencies are required to submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests. Offenses are recorded by the municipal and county in which they occur. Municipal law enforcement agencies report those crimes which occur within the cities, and the county sheriff's departments and state police report those crimes which occur within the counties but outside the cities.

Individual agencies are required to submit uniform crime reports on a monthly basis. Law enforcement agencies report the number of offenses reported to them in the following Part I crime categories:

- (1) Criminal Homicide
- (2) Forcible Rape
- (3) Robbery
- (4) Felonious Assault
- (5) Breaking and Entering
- (6) Larceny Theft
- (7) Motor Vehicle Theft

(Arson became the eight crime index offense in 1979, however, these statistics are collected in a supplemental form and are shown separately.)

In addition, law enforcement agencies report on a monthly basis supplemental offense information such as the value of property stolen and recovered, the circumstances surrounding homicides and rapes, the age, sex and race of all persons arrested and police disposition of juveniles. Police employee data is collected on an annual basis. Information on domestic violence is collected on a monthly basis in accordance with the state code 48-2A-9 and the subsequent information summaries family and household abuse in the state. As of April, 1988, law enforcement agencies began to report to this office a Monthly Controlled Substance Report, which provides information on the quality and type of drugs purchased or confiscated by law enforcement in West Virginia, as well as the estimated street value of these drugs. This data is included in this edition of **Crime in West Virginia**.

Verification Process

An obvious concern in the collection of crime statistics from law enforcement agencies throughout the state is the uniformity and accuracy of data received. All law enforcement agencies are furnished with the Uniform Crime Reporting Handbook which outlines in detail the proper procedures for scoring and classifying offenses. However, program aides such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the agencies. Additional controls therefore are necessary.

Each report received by the UCR Section is recorded, examined and verified for mathematical accuracy and possibly more important, reasonableness. The elimination of duplication of reporting by agencies receives particular attention. Checks are built into the data processing of the reports to further ensure their validity and accuracy. The UCR Program, however, is still affected to some degree by problems such as incorrect reports, incomplete records, misinterpreted data and human error, as are all statistical programs. In addition, it should be pointed out that there is no way of determining the actual total number of crimes which are committed. Many criminal acts occur which are not reported to official sources. It is for this reason the Uniform Crime Reporting Program focuses its attention in the offenses which are reported to law enforcement agencies.

In spite of these and other shortcomings, the Uniform Crime Reporting Program still provides the best information available concerning crime in West Virginia.

POPULATION DATA

The computation of crime rates as they appear in this report by municipal, county and state is based on 1997 population data provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

CRIME INDEX

The tabulations presented in the tables, graphs and charts in this publication indicate the volume and distribution of crime in West Virginia on the basis of a Crime Index. The crime figures are broken down by municipal, county, regional and state totals.

The Uniform Crime Reporting Program utilized seven crime classifications - Murder, Forcible Rape, Robbery, Felonious Assault, Breaking and Entering, Larceny Theft and Motor Vehicle theft, to establish an index to measure the trend and distribution of crime in the United States. These crimes are counted by law enforcement agencies as they become known to them. These crimes were selected as they represent the most common local crime problems. They are defined as all serious crimes either by their nature or by the volume in which they occur. The crimes, Murder, Forcible Rape, Robbery and Felonious Assault are categorized as Violence Crime. The crime's Breaking and Entering, Larceny Theft and Motor Vehicle Theft are classified as Non-Violent Crimes.

The monthly and annual Uniform Crime Reports received in 1997 from 218 municipal, county and state law enforcement agencies in West Virginia represent 100% of the estimated West Virginia population. The rural population is served both by the state police and sheriff's departments and the crime rate is computed for the rural population rather than for the agency, however, the number of offenses and percent of offenses cleared is listed separately for each agency.

This report provides police executives with a yardstick with which to measure local crime problems. To use this report as an administrative tool, data must be converted to percentages and rates. The most used of crime statistics is the Crime Index Rate which refers to the number of Crime Index Offenses per 100,000 population. **Due to the fact that no city in the state has a population over 100,000, calculations for each individual contributing agency are based on the number of offenses per 1,000 persons.**

For Uniform Crime Reporting purposes, a Crime Index Offense is cleared when the case has been solved either by arrest or by exceptional clearance.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the West Virginia system is based upon the proper classification of offenses by police.

The adoption of the Federal System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the West Virginia Uniform Crime Reporting System.

In view of the need for compatibility with the federal system, "offenses" under the program are not distinguished by designation of "high misdemeanors," "misdemeanors," or violations of municipal ordinances. The explanations of offense classifications may vary slightly with those employed at the federal level because the language used in that familiar to law enforcement in this state. However, the major categories of offense classification remain the same as those employed on the national level.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of West Virginia and project a state-wide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degree, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. As stated by the president's Commission of Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime In A Free Society" (1967 - Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it or deter it. The police do not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place.

- ▶ **Density and size of the community population and the metropolitan area of which it is a part.**
- ▶ **Composition of the population with reference particularly to age, sex, race and ethnic origin.**
- ▶ **Economic status of the population.**
- ▶ **Relative stability of the population, including commuters, seasonal and other transient types.**
- ▶ **Climate, including seasonal weather conditions.**
- ▶ **Educational, recreational and religious characteristics.**
- ▶ **Standards governing appointments to the police force.**
- ▶ **Policies of the prosecuting officials and the courts.**
- ▶ **Attitudes of the public toward law enforcement problems.**
- ▶ **The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.**

FORCIBLE RAPE

DEFINITION

Forcible Rape is the carnal knowledge of a female forcibly and against her will. For the purpose of Uniform Crime Reporting, rape is divided into two categories; (1) Rape by Force; and (2) Attempted Rape. Carnal abuse without force (statutory rape) and other sex offenses are not included.

Forcible Rape differs from other violent crimes in that the victim, in many cases, is hesitant in reporting the offense to police. The rigors of court procedures, embarrassment and fear of any accompanying stigma have a deterrent effect on the victim's willingness to make the crime known to police. The presence of a prior relationship between victim and perpetrator makes the determination of the act of force difficult to establish, and the usual clandestine nature of the offense presents a problem in verification.

SUMMARY

- A total of 355 Forcible Rape Offenses were reported for 1997.
- Forcible Rapes comprised 8.9 percent of the total for the Violent Crime Category and 0.8 percent of the total Crime Index Offenses.
- There were 19.6 Forcible Rapes per 100,000 population in West Virginia.
- July recorded the highest number of Forcible Rapes with 40.
- A total of 13.3 Forcible Rapes were cleared by arrest or exceptional clearance, a clearance rate of 37.4 percent. Adults were involved in 127 of the clearances.
- There were 107 persons arrested for Forcible Rape offenses; 105 of those arrested were males, 8 under 18, and 91 were white.
- Rapes by Force in 297 offenses where as 58 were assaults to Rape.

ROBBERY

DEFINITION

Robbery is defined as the felonious and forcible taking of the property of another against their will by violence or by putting them in fear. The element of personal confrontation is always present in this crime. Under the Uniform Crime Reporting Program, all assaults or attempts to rob are included. Robberies are reported in four general categories - gun; knife or cutting instrument; hands, fists, feet, etc.; and other dangerous weapons. As a general rule, robbery differs from larceny in that it is aggravated by the element of force or the threat of force.

Robbery, as a crime of violence, has a serious impact on the victim. In many instances, serious injury results. Oftentimes, along with physical injury or without, the victim suffers mental disturbance. Such damage is immeasurable. This is emphasized when the attempt to rob results in the death of the victim. Of course, in this case, the robbery would not be scored since the more serious offense, murder, would be reported and the robbery would serve as the motive. The placing of a dollar value, however, on the damage resulting from this type of offense is an attempt to measure that which is immeasurable.

SUMMARY

- A total of 782 Robbery Offenses were reported for 1991.
- Robberies comprised 19.7 percent of the total for the Violent Crime category and 1.8 percent of the total Crime Index Offenses.
- There were 43.1 Robberies per 100,000 persons in West Virginia.
- October recorded the highest number of Robberies with 16 offenses.
- The total dollar value for Robbery offenses was \$479,506, an average of \$612 for each offense.
- A total of 193 robberies were cleared by arrest or exceptional clearance, a clearance rate of 24.7 percent. Adults were involved in 192 of the clearances.
- There were 300 persons arrested for Robbery offenses; 252 of those arrested were males, 65 were under 18 and 192 were white.

FELONIOUS ASSAULT

DEFINITION

Felonious Assault, as defined under the West Virginia Uniform Crime Reporting program, is an attempt or offer with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that any injury result when a gun, knife or other weapon is used which would result in serious physical injury if the crime were successfully completed.

The use or attempted use of a dangerous weapon in an assault or the serious injury inflicted by hands, fists or feet separates this offense from those assaults categorized as "simple" and not felonious in nature.

The victim of a actual assault of this type may suffer injury or permanent disability and all assaults to kill and attempts to kill are recorded in this area. As with murder, the use of weapons to inflict these injuries make this offense a subject for analysis.

SUMMARY

- A total of 2,759 Felonious Assault Offenses were reported in 1997.
- Felonious Assaults comprised 69.5 percent of the total Violent Crime category and 6.0 percent of the total Crime Index Offenses.
- October recorded the highest number of Felonious Assaults with 336 offenses.
- There were 152.0 Felonious Assaults per 100,000 population in West Virginia.
- A total of 1,555 Felonious Assaults were cleared by arrest or exceptional clearance, a clearance rate of 56.4 percent. Adults were involved in 2,263 of the clearances.
- There were 1,051 persons arrested for Felonious Assault offenses; 895 of those arrested were males, 90 were under 18, and 848 were white.

BREAKING AND ENTERING

DEFINITION

Under this Program, Breaking and Entering is defined as an unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

Data collection for this offense is further categorized as to forcible entries, unlawful entries (where no force is used), and attempted entries.

As with other non-violent crimes, the motive of personal gain coupled with the element of opportunity, results in the commission of this offense by both the amateur and the professional perpetrator. Only the absence of confrontation and the use of force separate this crime from Robbery of the violent crime group. However, detection during commission many times results in confrontation of the victim by the perpetrator demonstrating why this offense is considered the most serious of the non-violent crime group.

The volume of this offense presents the police with a serious enforcement problem made more difficult in many areas by the lack of sufficient personnel to act as a deterrent and to provide successful solutions to these crimes.

SUMMARY

- A total of 10,647 Breaking and Entering offenses were reported for 1997.
- Breaking and Entering comprised 26.1 percent of the total for the Non-violent Crime category and 23.8 percent of the total Crime Index Offenses.

- There were 586.3 Breaking and Entering per 100,000 population in West Virginia.
- Breaking and Entering of residences accounted for 6,453 (60.6%) of the total offenses; 4,193 (39.4%) of the total offenses were at night.
- The total dollar value for Breaking and Entering offenses was \$10,560,409, an average of \$992 for each offense.
- A total of 1,239 Breaking and Entering were cleared by arrest or exceptional clearance, a clearance rate of 11.6 percent. Adults were involved in 1,021 of the clearances.
- There were 1,565 persons arrested for Breaking and Entering offenses; 1,432 of those arrested were males, 495 were under 18, and 1417 were white.

LARCENY THEFT

DEFINITION

Larceny Theft is the unlawful taking or stealing of articles of value without the use of force, violence or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from autos, and the theft of auto parts and accessories. Motor Vehicle theft is excluded from this category for crime reporting purposes, inasmuch as it is a separate Crime Index Offense.

Larceny offenses cleared by police are dramatically affected by the nature of the crime. As with other Non-violent Crimes, opportunity and stealth, working in favor of the perpetrator and against police detection, reduce solutions for this offense.

As with other offenses against property, Larceny is primarily a crime of opportunity. Types of larceny will differ in volume depending upon the opportunity for theft offered in a given area.

When the average value is applied to the reported crimes in this category, the dollar loss to victims was \$498. It is true that a portion of goods stolen was recovered and returned to the victims, but the relatively low percentage of crimes cleared by arrest, and the lack of specific identification characteristics on such property indicates these recoveries will not materially reduce the overall loss. In addition, many offenses in this category, particularly where the value of goods is small, never come to police attention.

SUMMARY

- A total of 26,934 Larceny Theft offenses were reported for 1997.
- Larceny Theft comprised 60.1 percent of the total for the Non-Violent Crime category and 65.9 percent of the total Crime Index Offenses.
- July recorded the highest number of Larcenies with 2,551 offenses.
- There were 1,483.2 Larceny Thefts per 100,000 population in West Virginia.
- Larceny Theft from automobiles accounted for 7,486 (27.0%) of the total offenses.
- The total dollar value for Larceny Theft offenses was \$13,426,180, an average of \$498 for each offense; of the total offenses 11,055 were \$200 and over in value.
- A total of 5,033 Larceny Thefts were cleared by arrest or exceptional clearance, a clearance rate of 18.6 percent. Adults were involved in 3,863 of the clearances.
- There were 5,646 persons arrested for Larceny Theft offenses; 3,804 of those arrested were males, 1,598 were under 18, and 4,821 were white.

WEST VIRGINIA ARREST DATA 1997

The West Virginia Uniform Crime Reporting Program requires the monthly reporting of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II classes is received from 218 county, state, and municipal law enforcement agencies and is analyzed and arranged according to age, sex, and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 70,847 arrests for Part I and Part II criminal offenses were reported during 1997. This was an increase of 101 arrested under the 1996 figure of 70,746. Based on population estimates, there was a statewide rate of 38.97 arrests per 1,000 persons in West Virginia. The arrest rate in 1996 was 38.20.

Since 1996, the number of persons arrested for Part I and Part II offenses has increased 0.1 percent while the arrest rate has increased by 2.0 percent.

A person is counted on the monthly arrest report each time he or she is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to the differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for the same or different offenses. This occurs frequently for such crimes as drunkenness, disorderly conduct and similar offenses. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be counted or when police or other official action beyond a mere interview, warning or admonishment is given.

These arrest figures do not indicate the actual number of individual persons arrested or summoned since, as has been pointed out, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of the perpetrators.

Of all reported arrests for 1996, 13.0 percent were for Part I Offenses (Murder, Forcible Rape, Robbery, Felonious Assault, Breaking & Entering, Larceny Theft and Motor Vehicle Theft). Analysis of Part I arrests indicates that Larceny, as in past years comprised the highest percentage of all arrests of Part I crimes with 61.4 percent. The "Drunkenness" category comprised 13.5 percent of the total arrests for Part II Offenses. There were 8,306 arrests for drunkenness in 1997 compared with 8,461 in 1996, down 1.9%. Driving Under the Influence accounted for 16.1% of the total Part II arrests. There were 9,900 arrests for DUI in 1997 compared to that of 9,829 in 1996, up 0.7%.

Juveniles were involved in 11.7 percent of the arrests for 1997, compared to 11.1 in 1996. Female arrests were up 0.2 percent from 14,479 arrests in 1996 to 14,448 arrests in 1997.

Arrests by race show that 88.1 percent of the persons arrested were White while 11.8 were Black.

VIOLENT CRIME

Arrests for crimes of violence (Murder, Rape, Robbery and Felonious Assault) on a statewide basis accounted for 16.5 percent of all arrests for Part I and 2.1 percent of the total arrests for all offenses. A further evaluation indicates that arrests for Felonious Assault were the most frequent, representing 69.3 percent of the total arrests for violent crimes, up from 68.1% during 1996.

PROPERTY CRIME

Property crime arrests (Breaking and Entering, Larceny Theft and Motor Vehicle Theft) comprised 83.4 percent of all arrests for Part I offenses and 10.8 percent of all arrests.

The highest percentage of property crime arrests 73.6 percent, occurred in the Larceny Theft arrests decreased 12.1 percent, from 6,421 in 1996 to 5,646 in 1997.

NARCOTIC DRUG LAW ARRESTS

Information concerning arrests for narcotic drug arrests is collected and analyzed according to specific drug categories. During 1997, a total of 4,342 arrests were made for narcotic drug law violations, a decrease of 0.8 percent over 1996. Analysis for individual drug categories showed that the highest percentage of arrests, 68.5 percent, involved possession of marijuana. The lowest percentage of arrests occurred in the sale and manufacture of "other dangerous drugs", amounting to 0.5 percent. Further analysis shows that the arrests for sale/manufacturing of drugs accounted for 15.8 percent and the arrests for possession of drugs represented 83.7 percent.

GAMBLING ARRESTS

Arrests for gambling offenses during 1997 amounted to 0.04 percent of all reported arrests for Part I and Part II offenses. Of those arrested for gambling, 76.0 percent were males. The highest percentage of arrests for gambling offenses, 16.7 percent occurred in both the 40-44 and 50-54 age category. A total of 24 gambling arrests was reported during 1997, an increase of 26.3 percent from the 1996 figure of 19.

LAW ENFORCEMENT EMPLOYEE DATA

1997

The Uniform Crime Reporting Program in West Virginia incorporates the collection of pertinent data relating to law enforcement entities of the state. Information regarding West Virginia law enforcement manpower, distribution, assaults against law enforcement officers and the number of and circumstances surrounding the killing of law enforcement officers are discussed in this section.

This information is submitted monthly by municipal, county and state law enforcement agencies and is published on a semi-annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 1997 and is limited to municipal, county and state law enforcement agencies reporting to the West Virginia UCR Program.

The determination of police manpower for any given area or municipality should be a subject of serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. Some of these factors, discussed elsewhere in this publication relate to size, density of population, geographic location, character and proximity to metropolitan areas. The information in this section relates to reported law enforcement strength and should not be interpreted as recommended strength for any given entity. Such determinations should be made after objectively evaluating the need for police services based on the above factors.

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties.

SWORN OFFICERS

In 1997, West Virginia had 3,003 sworn law enforcement personnel, compared to the 1996 figure of 2,937. This is an increase of 66 officers or 2.3 percent in the number of officers in the state. Rates based solely on sworn personnel show that the state average was 1.7 officers per 1,000 inhabitants. Males comprised 96.4 percent of all sworn personnel, while females comprised 3.7 percent.

STATE POLICE

The West Virginia State Police reported a total of 613 officers. This is an increase of 5.4 percent over last year's figure of 594 officers. The State Police had a rate of 0.5 sworn officers per 1,000 inhabitants (rural population only).

MUNICIPAL

Municipal Police Department reported 1,507 sworn officers, an increase of 0.2 percent over the 1996 figure of 1,504 sworn officers. This is a rate of 2.4 sworn officers for each 1,000 inhabitants (municipal population only).

SHERIFF

County Sheriffs Departments reported a total of 763 sworn officers. This is an increase of 4.5 percent over the 1996 figure of 730. Based on sworn personnel, this is a rate of 0.6 officers per 1,000 inhabitants (rural population only.)

DEPARTMENT OF NATURAL RESOURCES(DNR)

The Department of Natural Resources reported 107 sworn officers, a decrease of 1.8 percent over the 1996 figure of 109 officers. These figures reflect a rate of 0.09 sworn officers for each 1,000 inhabitant (rural population only.)

LAW ENFORCEMENT OFFICERS KILLED AND ASSAULTED 1997

The killing of a police officer has an effect on society which reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well being of the community and a serious breach of the internal security of the country. Today, a young person who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society he or she is sworn to protect. This deplorable situation should be a subject of serious public concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following summary information:

A total of 435 Assaults on Law Enforcement Officers was reported in 1997, of which 97, or 22.3 percent, resulted in personal injury to the officer.

For every 1,000 arrests, there 6.2 Assaults, and for each 100 sworn officers there were 15.5 Assaults.

Personal weapons (hands, fists, feet, etc.) were used in 402 (91.9%) of the Assaults.

A total of 397 of the Assaults was cleared, a clearance rate of 91.3 percent.

DOMESTIC VIOLENCE

The increasing incidence of abuse between family members prompted the enactment of House Bill 802 which resulted in West Virginia State Law §48-2A. This law mandated the collection of domestic violence. Information on spouses, persons living as spouses, persons who formerly resided as spouses, parents, children and step children or other persons related by blood or marriage is collected.

Abuse: the occurrence of one or more of the following acts between family or household members who reside together or who formerly resided together:

1. Attempting to cause or intentionally, knowingly or recklessly causing bodily injury with or without a dangerous or deadly weapon.
2. Placing, by physical menace, another in fear of imminent serious bodily injury.
3. Sexually abusing a person under the age of 18 years.

The following information on Domestic Violence is in compliance with State Code §48-2A-9. Collecting the information on Domestic Violence began on July 1, 1981.

Law enforcement agencies reported they received a total of 9,992 complaints on Domestic Violence for 1997. This represented an 3.3 % increase over the 1996 figure of 9,678. They investigated 9,662 (96.7%) of these complaints. Of the complainants who were victims, 1,393 (14.0%) were male, 7,800 (78.1%) female and 24 (3.5%) of them had filed a previous complaint. Repeated Abuse Victims suffered Homicides, 2,644 Simple Assaults and 67 Felonious Assaults. Protection Orders were violated in 180 (1.8%) cases.

CAVEAT

CHILD ABUSE CASES FROM HUMAN SERVICES

Although West Virginia State Code §48-2A-9 mandates the West Virginia Department of Health and Human Resources to report to the Department of Public Safety in those instances of child abuse reported to the department which are not otherwise reported to any other law enforcement agency, DHHR was unable to provide the 1996 child abuse statistics as required. DHHR stated that such figures for 1996 are substantially understated due to the lack of statistics from numerous counties. Reproduction of these figures in the report would misrepresent the number of child abuse cases. Due to this fact, the information could not be supplied.

HATE CRIMES

Crimes motivated by hate and bias tend to erode the basic fabric of society. Bias incidents having a racial, religious, ethnic, sexual or gender component as well as crimes against individuals with a handicap, manifest themselves in a wide spectrum of criminal activities. These bias incidents jeopardize the active and open pursuit of freedom and opportunity. They attack our citizens based on their race, religion, ethnic heritage, sexual orientation, handicap, political affiliation or gender. Closely linked to such heritage are individual values, beliefs and identities.

In response to a growing concern about such crimes, the President, on April 23, 1990 signed into law the "Hate Crime Statistics Act of 1990." The Act required the Attorney General to establish guidelines and collect, as part of the UCR program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation or ethnicity, including where appropriate the crimes of murder; non-negligent manslaughter; forcible rape; aggravated assault; simple assault; intimidation; arson; and destruction, damage or vandalism of property." The collection was to begin in calendar year 1990 and continue for 4 succeeding years. The Church Arson Prevention Act of 1996 amends, and thereby, reauthorizes the Hate Crime Statistics Act by striking "for the year 1990 and each succeeding 4 calendar years" and inserting "for each calendar year." Thus, Hate Crime reporting is a permanent feature of UCR. Disability was added to the act in 1997.

West Virginia also recognizes the rights for its citizens to be ". . . free from any violence, or intimidation by threat of violence, committed against their persons or property because of their race, color, religion, ancestry, national origin, political affiliation or sex." §61-6-2 states that "if any person does by force or threat of force, willfully injure, intimidate or interfere with or attempt to injure, intimate or interfere with, or oppress or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her. . . they shall be guilty of a felony." Also "if any person conspires with another person or persons to willfully injure, oppress, threaten or intimidate or interfere with any citizen . . . and in wilful furtherance thereof to assemble with one or more persons for the purpose of teaching any technique or means capable of causing property damage, bodily injury or death when such person or persons intend to employ such techniques or means to violate . . . they shall be guilty of a felony."

The reporting of Hate Crime data in West Virginia has been simultaneous with the state's conversion to Incident Based Reporting (IBR). In 1996, UCR received its first reports of Hate Crime. In 1997, 24 agencies (11% of our total contributors) submitted IBR data. Three (3) of these 24 contributors submitted three (3) incidents of bias based crimes, so data is extremely limited.
