Greetings from the Governor

West Virginia is truly a wonderful State in which to live. Along with our beautiful scenery, spirit of community and great citizens, we continue to report one of the lowest crime rates in all of the country. This thirty-third edition of Crime in West Virginia demonstrates the relentless efforts of our people and law enforcement community to work together to ensure that West Virginia remains a safe and friendly place to work, live and visit.

With the implementation of the National Incident Based Reporting System (NIBRS) in 1999, a more accurate picture of the crime being committed in West Virginia was able to be produced. This 2004 Crime in West Virginia publication has reports detailing such things as victims, offenders and time of crime, as well as details of domestic violence and sexual assaults. This type of information is important to such people as law enforcement managers, business owners and researchers who want to study crime trends and how they affect our society.

I would like to take this opportunity to thank our law enforcement community. Without their help and participation this publication would not be possible. It is through their dedication and professionalism that West Virginia remains wild, wonderful and safe.

Sincerely,

Dear Governor Manchin:

Pursuant to Chapter 15, Article 2, Section 24 of the code of West Virginia, I am very pleased to submit to you the thirty-third annual report on Crime in West Virginia.

This report is the sixth to have been submitted in the NIBRS format. We are only beginning to realize the usefulness of the vast quantity of information that it can provide. By evaluating combinations of data elements such as age, sex and race of victims and offenders, as well as time, place and circumstances of offenses, we can begin to see a picture of the type of crime that is being committed in West Virginia. As police agencies throughout the State begin to utilize the full functionality of the system, they can then begin to allocate manpower and resources to better serve the citizens of West Virginia.

Finally, we would like to thank all of West Virginia's law enforcement agencies who have contributed the data that allows us to produce this report. Without their participation, this publication, as well as the reporting system itself, would not be possible.

Sincerely yours,

COLONEL D. L. LEMMON
SUPERINTENDENT

FOREWORD

Over a decade ago, the National Incident-Based Reporting System (NIBRS) was developed as the “new” Uniform Crime Reporting (UCR) Program. Since that time, the agencies whose data appear in this publication have made the transition to the “new” system, leading the way to more relevant, flexible and reliable criminal justice statistics for the state as well as the nation. In many instances, the transitions were difficult and placed a strain on already tight information management resources. The presentations in this document represent the results of that extraordinary effort.

NIBRS and its state equivalent, West Virginia Incident-Based Reporting (WV-IBR), were developed to provide more and better information about crime. The presentations in this document illustrate only the barest potential of the system. As participation grows throughout the law enforcement community, so will the utility of the data and the ability to do complex analysis on a wide array of criminal justice issues. That ability will bring with it an understanding of crime never before possible. For taking the first steps toward making NIBRS and WV-IBR a reality, the chiefs, sheriffs, superintendents and directors of the law enforcement agencies are to be commended. They are leaders not only with vision, but with the commitment to continue law enforcement’s advancement in all areas of information technology. Field officers that had to adapt to new reporting forms and procedures are also to be commended, as they are the true source of the information contained in this annual report.

INTRODUCTION

The National Incident-Based Reporting System, or NIBRS, was developed in response to law enforcement's call for more and better crime statistics. The Uniform Crime Reporting (UCR) Program had served law enforcement well since 1930, but the advent of computers, coupled with the evolution in the nature of criminality in the Nation and State, resulted in a need for modernization. The FBI, with support and funding from the Bureau of Justice Statistics, undertook the redesign process, and in 1989 after years of study and testing, launched NIBRS or the new UCR. States soon began implementing the new system that collects incident-based data as opposed to summary counts and addresses a wide array of offenses and details about crime and its nature.

West Virginia responded to need to modernize crime reporting by converting from the summary based collection system to an incident-based reporting (IBR) system. The state program is known as West Virginia Incident-Based Reporting (WV-IBR). This effort was greatly aided by funding from the US Bureau of Justice Statistics and the WV Division of Criminal Justice Services (WVDCJS). In September of 1998, West Virginia became the sixteenth state to receive NIBRS certification by the FBI. As of January 1, 1999, West Virginia fully committed to IBR by only accepting data in the WV-IBR format. Full conversion and adjustment to the new system is still ongoing.

Collection Design

NIBRS and WV-IBR collects information on each single incident and arrest within 22 crime categories composed of 46 offense types (known as Group A offenses). For each occurrence known to the police within these categories, incident, offense, victim property, offender and arrestee information is sent first to the state UCR program, where it is reviewed before being forwarded to the FBI and the WV Statistical Analysis Center (SAC).

Most of the general concepts for collecting, scoring and reporting UCR data are retained in NIBRS. Unlike the historical UCR system under which data were summarized monthly, NIBRS data are sent incident by incident, or disaggregated, lending great flexibility in terms of data compilation and analysis. The design of NIBRS allows extraction of information formerly collected through the summarized system to maintain the integrity of summary UCR's long-running statistical series on crime.

Implementation

NIBRS is designed to be a byproduct of a modern automated law enforcement law enforcement information system. It is incident-based, *as are law enforcement records*. Because NIBRS solicits considerably more detail about each criminal incident than did summary UCR, it is necessary, however that automated records systems be established or modified to extract the needed information from police records at the local level. These local agency systems must meet both NIBRS and the state-specific requirements (WV-IBR) that address state-level criminal justice issues.

Before a local agency begins submitting data to WV-IBR and the FBI, the agency must demonstrate its ability to meet NIBRS and WV-IBR reporting requirements. All agencies whose data appear in this document have successfully demonstrated that their record systems are capable of producing reliable crime information in the NIBRS and WV-IBR format.

METHODOLOGY

Tables and narrative comments addressing the volume and types of criminal incidents reported to WV-IBR and the FBI in 2004 are presented throughout this document.

Criminal incidents in NIBRS are classified as crimes against persons, crimes against property and crimes against society.¹ Incidents can involve more than one offense, victim or offender. For counting purposes, one offense is counted for each victim of *crimes against persons* (assault offenses, homicide offenses, kidnapping/abduction, and sex offenses, forcible and non-forcible). Regardless of the number of victims, one offense is counted for each distinct incident of *crimes against property* (bribery, burglary/breaking and entering, counterfeiting/forgery, destruction/damage/vandalism of property, embezzlement, extortion/blackmail, fraud offenses, larceny/theft offenses, motor vehicle theft, robbery, stolen property offenses) and *crimes against society* (drug/narcotic offenses, gambling offenses, pornography/obscene material, prostitution offenses and weapon law violations). Violent crimes are murder, forcible sex offenses, assault offenses, kidnapping/abduction and robbery. Robbery is a violent crime against property as it involves force or threat of force but its objective is to obtain money or property.

While “counting” in summary UCR was for the most part straight forward, NIBRS introduces a myriad of data aggregation or “counting” possibilities. In this document, the principles outlined in “Methods for Understanding and Analyzing NIBRS Data²” were followed. The “unit of count” varies from table to table, or even by column within tables. Explanatory notes accompany each table to clarify the method of aggregation.

IBR data are collected for 22 crime categories composed of 46 specific offenses (known as Group A offenses). For each offense known to police within these categories, incident, victim, property, offender and arrest information is gathered.

¹ See Appendix 1 for offense definitions.

OFFENSES BY EXCEPTIONAL CLEARANCE 2004

Law enforcement agencies recorded clearances in 26.6% of all the criminal incidents reported under WVIBRS. Incidents are cleared by arrest (23.6% of all incidents) or exceptional means (3.0% of all incidents) when some element beyond law enforcement precludes arrest, e.g. death of the offender. The most frequent basis for clearing incidents exceptionally was "victim refusing to cooperate".

Offenses

NIBRS agencies report various information relating to each of the 46 offense classes in NIBRS. As stated earlier, there can be multiple types of crimes within an incident, and offense-specific data are recorded for each.

Of the 96,404 NIBRS offenses reported 23% were crimes against persons, 69% were crimes against property and 8% were crimes against society. Larceny/theft was the most frequently reported crime, accounting for 30% of the total. Assault offenses accounted for 22% of all the offenses and destruction/damage/vandalism of property for 17%. Approximately 0.6% of the offenses reported were attempts.

Victims

In NIBRS, victims can be reported as persons, business, financial institutions, government, religious organizations or society as a whole. 73 of every 100 of the 101,898 reported crime victims were individuals (people). Following in terms of volume were businesses (17%), society/public (7%) and government (1%).

The victims of crimes against persons are always individuals, and society is always the victim in crimes against society. Victims of crimes against property can be any victim type except society. Persons (individuals), however, were the dominant victim types in all crimes against property except embezzlement and bribery.

PROPERTY

2004

Property

In NIBRS, property is reported as burned; counterfeited or forged; damaged/destroyed or vandalized; or stolen, embezzled, defrauded, etc. Law enforcement activity in relation to property is recorded as recovered (for property stolen) or seized (as in the case of proceeds from illegal gambling operation). The type of property involved, as well as its value, is recorded for each type of loss/activity.

The state's law enforcement agencies jointly reported \$78,885,912 in total property losses with \$59,056,391 (75%) stolen; \$1,294,422 (1.6%) counterfeited/forgery; \$8,058,600 (10%) damaged/destroyed or vandalized; and \$10,476,499 (13%) burned. Law enforcement agencies seized property valued at \$418,033 and recovered stolen property valued at \$14,080,370. These figures do not include seizures in connection with drug/narcotic violations.

By property type, the highest dollar losses due to thefts were recorded for motor vehicles, with automobiles composing the largest portion. Burning losses were highest for structures (dwellings, commercial buildings, etc.), and counterfeiting/forgery losses highest for negotiable instruments, such as bearer bonds or endorsed checks, money orders and traveler's checks. Among all types of property, motor vehicles resulted in the greatest dollar losses due to criminal activity.

Of the \$59,056,391 dollars worth of property that was stolen, embezzled, etc., the law enforcement departments reported recovering 24% or \$14,080,370. The most successful recovery rate was for motor vehicles with \$23,890,512 stolen and \$11,385,502 (48%) recovered. In addition to the recovery of property, the agencies reported seizing money valued at \$176,762 and negotiable instruments at \$24,263.

Offenders

W VIBR contributors are asked to supply information known about offenders even though no arrests have ever been made. The offender data, therefore, include information about arrestees, fugitives or even persons whose identities are not known but witnesses or victims have supplied characteristics such as approximate age, sex and/or race. In a single incident, one offender may victimize several persons, several victimize one person, or several offenders may victimize several people. According to the 2004 W VIBR data, the average number of *known* offenders ranged from 0.32 for theft from motor vehicle to 1.50 for bribery.

SECTION II

JURISDICTIONAL REPORTING

The individual jurisdictional figures are shown in subsequent tables addressing cities, counties, universities and colleges and other law enforcement agencies. There are three sets of tables: one shows the number of incidents, offenses, victims and offenders recorded for each jurisdiction; the others, the age and sex of victims and of offenders for crimes against persons and property.

Due to the many factors than can affect the volume and type of crimes to vary from place to place, care must be exercised in making any comparisons among agencies. Population size is the only crime correlate used in this publication. While other factors are of equal concern, no attempt is made to relate them to the data presented in this document.

DOMESTIC VIOLENCE

2004

Domestic violence is a phenomenon that erodes the infrastructure of our families; our social makeup and our culture as well threaten the integrity of our future. Because the West Virginia legislature has recognized the importance of addressing this issue, the WV code (§ 48-27-101) expresses that:

“Every person has a right to be safe and secure in his or her home and family and to be free from domestic violence.

Children are often physically assaulted or witness violence against one of their parents or other family or household members, violence which too often untimely results in death. These children may suffer deep and lasting emotional harm from victimization and exposure from domestic violence.

Domestic violence is a major health and law enforcement problem with enormous costs to the state in both dollars and human lives. It affects people of all racial and ethnic backgrounds and all socioeconomic classes; and

Domestic violence can be deterred, prevented or reduced by legal intervention that treats this problem with the seriousness that it deserves.”

“Domestic violence “or “abuse” in West Virginia is defined by §48-27-202 as the occurrence of one or more of the following acts between family or household members:

“Attempting to cause or intentionally knowingly or recklessly causing physical harm to another with or without dangerous or deadly weapons;

Placing another in reasonable apprehension of physical harm;

Creating fear of physical harm by harassment, psychological abuse or threatening acts;

Committing either sexual assault or sexual abuse...;

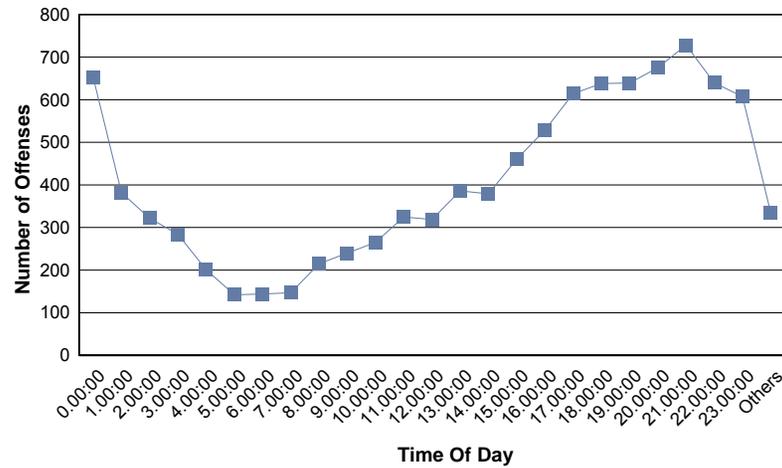

Holding, confining detaining or abducting another person against that person’s will.”

The following reports summarize the information on Domestic Violence in West Virginia as reported to law enforcement during 2004.

SEXUAL ASSAULTS

2004

Sexual offenses in Incident Based Reporting are Forcible (*Forcible Rape, Forcible Sodomy, Sexual Assault with an Object and Forcible Fondling*) and Nonforcible (*Statutory Rape and Incest*). These offenses are crimes, not acts of uncontrolled sexual lust. The victims may be of either sex and of any age. The offense of *Forcible Rape* requires that the victim and offender to be of opposite sexes, while the other offenses may have both the victim and offender of the same sex.

Hate/Bias Crimes

2004

Bias incidents having a racial, religious, ethnic, sexual or gender component as well as crimes against individuals with a handicap, manifest themselves in a wide spectrum of criminal activities. These bias incidents jeopardize the active and open pursuit of freedom and opportunity. They attack our citizens based on their race, religion, ethnic heritage sexual orientation, handicap, political affiliation or gender. Closely linked to such heritage are individual values, beliefs and identities which are constitutionally protected and are challenged by bias motivated crimes. Not only is the person who is personally touched by these offenses victimized, but the entire class of individual residing in the community is affected, as well as damaging the basic fabric of society.

In response to a growing concern about such crimes, the President, on April 23, 1990 signed into law the "Hate Crime Statistics Act of 1990", which required the Attorney General to establish guidelines and collect, as part of the UCR program, data "...**about crimes that manifest evidence of prejudice based on race, religion, sexual orientation or ethnicity...**" Disability was added to the act in 1997.

West Virginia also recognizes the right for its citizens to be "... **free from any violence, or intimidation by threat of violence committed against their persons or property because of their race, color religion, ancestry, national origin, political affiliation or sex.**"§61-6-2 also states that "**if any person does by force or threat of force, willfully injure, intimidate or interfere with or attempt to injure, intimidate or interfere with, or oppress or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her... or ... if any person conspires with another person conspires with another person or persons to willfully injure, oppress threaten or intimidate or interfere with any citizen... and in willful furtherance thereof to assemble with one or more persons for the purpose of teaching any technique or means capable of causing property damage, bodily injury or death when such person or persons intend to employ such techniques or means to violate... they shall be guilty of a felony.**"

Hate crimes are not separate distinct crimes, but rather "traditional" offenses motivated by an offender's bias. For example, an offender may commit an assault because of his/her bias against the victim's race, religion, sexual orientation, ethnicity/national origin, disability, gender or political affiliation. So it's not necessary to list these offenses in a new crime category. Hate crime data is obtained by collecting additional information about crimes currently being reported to the UCR program, with the bias motivations being specifically addressed. Because of the difficulty in determining an offender's subjective motivation in the commission of a crime, bias is to be reported only after law enforcement investigation revealed sufficient evidence that offender's actions were motivated, in whole or in part, in bias.

These reports summarize the hate/bias incidents in West Virginia as reported to law enforcement.

Offense Definitions

The national UCR Program collects and reports crime incident data for the Nation, states, counties, and cities, through NIBRS and the state programs such as WVIBR. Essential to the maintenance of uniform and consistent data is the utilization of standard definitions of the offenses which are set forth and explained on the following pages.

The definitions, which were developed for NIBRS and WVIBR, are not meant to be used for charging persons with crimes. To the contrary, they are meant to be "receptacles" or "pigeonholes" for reporting crimes that are committed throughout the United States. The purpose for UCR, as developed by law enforcement, is to provide a "common denominator" language which transcends varying local and state laws. State statutes and local ordinances must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. On the other hand, the definitions used in the NIBRS and WVIBR are generic in order not to exclude varying state and Federal statutes relating to the same type of crime.

Accordingly, the offense definitions in NIBRS are based on the common law definitions found in *Black's Law Dictionary*, as well as those used in the *Uniform Crime Reporting Handbook* and the NCIC Uniform Offense Classifications. Since most state statutes are also based on the common law definitions, even though they may vary as to specifics, most should fit into the corresponding NIBRS and WVIBR offense classifications.

State statute definitions may cross the NIBRS definitions and vice versa. In these cases, the non-conforming offenses should be reported according to their NIBRS offense classifications. For example, some states have "larceny" statutes which are so broadly worded they include the crime of embezzlement. If an embezzlement, as defined in NIBRS, is perpetuated within such a state, it should be reported to the FBI as Embezzlement, not Larceny/Theft, even though the offender is charged locally with larceny.

There are 22 Group "A" crime categories made up of 46 Group "A" offenses. The crime categories are listed below in alphabetical order. Immediately following the name of each category is an indication of whether it involves a "Crime Against Person", "Crime Against Property" or "Crime Against Society." For purposes of this report, violent crimes are murder and nonnegligent manslaughter, forcible sex offenses, assault offenses, kidnapping/abduction and robbery.
