Mission Statement

The West Virginia State Police Academy Professional Development Center will provide police officers of West Virginia with the most current methods of training and instruction in law enforcement to promote efficiency and effectiveness in order to increase the professional skills of all law enforcement professionals to better serve the citizens of West Virginia.

The West Virginia State Police Academy has been providing the highest quality law enforcement training and education since 1949. There are many new methods of instruction and technological advances in the field of police training. However, our goal remains the same, to increase the professional skills of West Virginia law enforcement professionals at all levels of government.

We are committed to provide local, state, and federal law enforcement agencies low-cost education and training that will produce highly skilled and professional police officers.

Classes are taught by subject matter experts with extensive education, training, experience, and proven success in their areas of expertise. The subject matter experts teach courses that are relevant and current to your needs. The world of law enforcement is an ever-changing environment that demands training be tailored to what is taking place in your community, your county, your state, and our Nation today. We can assure you this is happening at the Professional Development Center and continues to be an ongoing priority for our Staff.

It is an honor and a privilege to have this opportunity to provide every Police Officer who attends the Academy the best training in the country.

Leadership and learning are indispensable to each other.

~ John F. Kennedy ~

About Our Facility

The Professional Development Center offers approximately 12,000 square feet of office and classroom space. The PDC has four classrooms, the largest of which can accommodate 60 students and another that includes a 42-station computer lab. Each of the four classrooms are equipped with large screen televisions, computers, a public address system and a white glass board. There is also a centralized break room offering coffee, soda, water and various snacks. Free Wi-Fi and public computer access are available to all students.

Registration Procedures

Attendance and enrollment in the classes within this catalog are restricted to certified police officers, chiefs of police and sheriffs. The Director of Professional Development may grant exemptions to this rule on a case-by-case basis.

Registration must be received no later than two weeks prior to the beginning of the course. Agencies and/or individuals with outstanding debts to the Academy will not be permitted to register for courses.

Complete registration information can be found on page 8. The course registration form is located on the last page.

Cancellation Policy

Individuals who cancel their registration for a course must do so at least two weeks in advance of the start of the course. Failure to give adequate notice of cancellation will result in forfeiture of tuition and prevents others on a waiting list from attending the course. Your cooperation in reducing the number of “no shows” is appreciated. The intent and purpose of this policy is to encourage students to attend courses for which they have registered.

Some courses are subject to cancellation by the Professional Development Center due to inadequate enrollment.

Special Note: Any instances regarding the spread of COVID-19 may force an immediate cancellation of a class or classes. If that is the case, all students and instructors will be notified and arrangements will be made for the issuance of any monetary refunds, if applicable.

In-Service Credit

In-service accreditation will be awarded for all applicable courses through the Law Enforcement Professional Standards Committee (LEPSC) of the Governor’s Committee on Crime, Delinquency and Correction.

Classroom Presentation and Management

Generally, classes will begin between 8:00 and 8:30 a.m. and may conclude as late as 4:00 p.m. daily, unless otherwise noted. Certain courses may require additional evening training hours. Instructional breaks and lunch periods will be set by the course instructor or supervisor. Smoking is not allowed within the buildings located on the Academy complex. All students are expected to display a professional demeanor at all times and are required to adhere to the rules and regulations governing the West Virginia State Police Academy.

Dress Code

The West Virginia State Police Academy Professional Development Center strives to provide and maintain the highest standards of training. Students are requested to ***dress in department uniform or business casual attire***. **No shorts, tank- tops, sweats or athletic attire or other clothing considered unprofessional will be worn on academy grounds, outside of the privacy of the dormitories. Jeans are permissible; however, they will be clean, not faded, frayed, have holes or patches. Shirts with obscene logos will not be permitted.** ***Visible tattoos must be covered.***

NOTE: Those courses that may require specific clothing such as fatigues or physical training apparel are exceptions to the dress code.

Directions

The Professional Development Center is located west of Charleston, WV along Interstate 64. Take exit number 50, Institute, to WV Route 25. Proceed east on Route 25 for approximately 3/4 of a mile and then turn left onto Academy Drive. The Professional Development Center is located approximately 3/10 mile past the main complex on Academy Drive. Parking is available at the Professional Development Center.

Lodging and Meals

Requests for lodging at the Academy facilities shall be made on the course registration form and are contingent upon availability. Academy lodging is not guaranteed if the request is not made in advance at the time of registration. Lodging/meals will be invoiced to the student's agency at a rate of $25.00 per person/per day. (Please see below for rate breakdown). Invoices will be sent upon completion of the course.

Rate Breakdown

Lodging…… $25.00/person/day

Meals

Breakfast…… $10.00/person/day
Lunch……$10.00/person/day
Dinner……...$10.00/person/day

Please Note: All male students will be lodged at the PDC dorm facility and female students will be lodged in "B" Building at the main Academy. Females are prohibited in the male dorms and males are prohibited in the female dorms. Please plan accordingly.

Meals are available to all students attending training. Each student's meal will be determined on the first day of each course. Meals will be invoiced to the student's agency based on what is indicated on the PDC Course Registration Form. Invoices will be sent upon completion of the course.

Other lodging is available locally for law enforcement officers attending training at the West Virginia State Police Professional Development Center.

This information is provided for the convenience of our students. The West Virginia State Police Professional Development Center does not endorse, sponsor and are not affiliated with the following:

Ramada Plaza Hotel - South Charleston (304) 744-4641

Wingate Inn - South Charleston (304) 744-4444

Sleep Inn - Cross Lanes (304) 776-7711

Wyndham Garden Hotel - Cross Lanes (304) 776-8070

Holiday Inn Express & Suites - Cross Lanes (304) 769-5818

Registration

All courses are filled on a "***first come, first serve***" basis. Registration (using the form located on the last page) for each class must be received in writing by US mail or email. (A fax option is unavailable). To register for any of the classes listed in this catalog, unless otherwise noted, contact:

Mrs. Susan Gandee

West Virginia State Police Academy

123 Academy Drive

Dunbar, WV 25064

Phone: (304) 352-1069

Email: susan.r.gandee@wvsp.gov

An email confirmation will be sent upon receipt of each request. This confirmation letter will advise the student they are registered for the course or that the course is full, and their name has been placed on a waiting list.

West Virginia State Police members must submit a request through channels to attend the courses listed.

An email will also be sent if the course is cancelled or rescheduled.

Agencies will be invoiced for payment AFTER the class has occurred. Payments can also be made during the class. The PDC will no longer accept pre-payments.

Course Schedule (July – December 2026)

Month	Day(s)	Course Name
August	17-24	Crime Scene Reconstruction
September	14-18	Long Gun Instructor
September	21-25	Blood Spatter Analysis
October	5-7	Evidence Detection/Collection (hands-on lab)
October	19-23	Instructor Development (Belington)
October	26-30	Excel for Crash Reconstruction
November	9-10	Crime Scene Photography
November	30-Dec 4	Instructor Development (Charleston)

Outside Training Hosted at the PDC		
August	5-7	Desert Snow (Criminal Interdiction)
August	24-28	Basic Bloodstain Pattern Analysis

NOTE: *Any classes that are added or deleted from the catalog will be distributed to law enforcement using the Law Enforcement Professional Standards (LEPS) Listserv.*

Registration, including any payments, for outside courses will be made through the company providing the training, not through the PDC. Registration information will be provided on the announcement flyer.

(If available, lodging and meals may still be requested through the PDC.)

Course Descriptions

Blood Spatter Analysis (Blood Dynamics) (40 hours)

The Blood Spatter Analysis Class (also known referred to as Blood Dynamics) will cover topics such as:

- History
- Physical properties
- Terminology
- Medical and anatomical aspects of blood
- Pattern classification (Decision map)
- Scientific method
- 3-D reconstruction
- Latent blood enhancement
- Documentation
- BPA and the courtroom
- Report writing

NOTE: This class is offered for anyone; however, it is recommended for those persons involved with crime scene processing and evidence collection. The class should not be taken only as a way to fulfill in-service credits.

Date: September 21-25, 2026 - Class starts at 0830hrs.

Cost: $200.00
Meals and lodging will be billed accordingly

Instructor: Cpl. J. D. Matheny, WVSP
Dave Castle, WVSP

Crime Scene Photography (16 hours)

This course is specifically designed for anyone who is tasked with the responsibility of having to document crime scenes, crash scenes, evidentiary items, and latent print evidence.

This class will cover using manual settings on digital SLR cameras (aperture, shutter speed, and ISO) for taking pictures in any situation, image compression (lossy vs lossless) and storage solutions, image composition, and evidentiary needs for photographs submitted to the laboratory for evaluation. Examination photography of evidence, impression photography, flash photography, night and low light photography, as well as situations with Luminol for blood stain documentation will be covered.

NOTE: The first day of class will last until several hours after dark.

Special Concerns: Each student will need to provide an SLR digital camera and tripod.

Dates: November 9-10, 2026 - Class starts at 0830hrs.

Cost: $125.00
Meals and lodging will be billed accordingly

Instructor: Dave Castle, WVSP

Crime Scene Reconstruction (40 hours)

Prerequisites:
CSI I, CSI II, Blood Dynamics I, Blood Dynamics II, Shooting Reconstruction

Crime Scene Reconstruction is designed for advanced crime scene investigators. In this course, the student will learn how to apply the information learned in the above prerequisites to a crime scene reconstruction methodology (Event Analysis [Bevel & Gardner]) in order to determine how an incident occurred by utilizing scientific methods. The student will learn to identify the event segments and events that make up an incident and place them in a logical hierarchal sequence based upon scene context and the limited universe in which they occurred.

Ultimately the student will be able to illustrate the best explanation of how an incident took place by creating a flowchart of events, which may be useful as an exhibit at trial. Among the concepts instructed in the course are relative and absolute timing, false premise, inductive/deductive/abductive reasoning, cognitive bias, and scientific methods, as well as the principles of lateral continuity and superposition. This course involves the use of classroom and practical exercises. Near the conclusion of the course, if time allows, students may present unresolved cases to the class for input and suggestions.

Date: August 17-24, 2026 - Class starts at 0830hrs.

Cost: $200.00
Meals and lodging will be billed accordingly

Instructor: Cpl. J. D. Matheny, WVSP
Dave Castle, WVSP

Evidence Detection/Collection (Hands-on Lab) (24 hours)

This will be a hands-on laboratory class where all students will physically participate in evidence collection and/or testing using the following techniques/equipment:

- Latent prints (powder/amido black)
- Biological evidence (Q swabs/wet items)
- Firearms (pistol/revolver/long guns)
- GSR kit
- Trace evidence (tweezer/tape lifts)
- Toolmarks (AccuTrans)
- Metal detector
- Shoe/tire track (dental stone/EDPL)
- Documents (packaging considerations)
- Fire debris (arson cans)
- Bluestar
- Hemident
- OBTI
- LCV
- ALS
- Bullet hole test kit

Dates: October 5-7, 2026 - Class starts at 0830hrs.

Cost: $125.00
Meals and lodging will be billed accordingly

Instructor: Dave Castle, WVSP
Julianne Fowler, WVSP

Excel for Crash Reconstruction (40 hours)

Crash Reconstruction is a math-heavy specialty with a lot of moving parts and variances. The variances can be time consuming and complex to complete using manual math practices. Using Microsoft Excel can allow complex and lengthy problems to be checked quickly and efficiently.

This course is designed to teach Crash Reconstruction Experts with little to no Microsoft Excel knowledge on how to make charts, set up equations, and construct a Monte Carlo Analysis (MCA). The course also covers basic statistical knowledge to allow an understanding of the MCA and what it means to achieve. Students will also learn how to construct User Based Functions inside Excel to accelerate their use of the system.

Minimum Requirements:

- Laptop or Computer capable of using Microsoft Excel
- Microsoft Excel, preferability the newest version

Useful additional items

- Keyboard with a number pad
- Computer mouse

Dates: October 26-30, 2026 – Class starts at 0830hrs

Cost: $200.00
Meals and lodging will be billed accordingly

Instructors: Sergeant Robert Marsh, WVSP
TFC Thunder Nicholson, WVSP

Instructor Development Course (40 hours Supervisory/Non-Supervisory)

This course of study is required prior to receiving certification as a law enforcement training instructor. The training is designed to improve and develop teaching skills. The course is designed as a "train-the-trainer" type course where an instructor teaches students how to be an instructor. Topics include adult classroom management, lesson planning and organizing and the use of visual aids. Instruction also includes aspects of classroom administration where the main instructor supervises fellow instructors in preparing students and the classroom for learning. Students will be required to give four (4) presentations during the course and will be tested at the end of the week.

This course will be held in two different locations. Please list on the PDC Course registration form the location you plan to attend.

First Location

Dates: November 30 - December 4, 2026 – **Charleston, WV**
Professional Development Center, WVSP Academy
Class begins at 0830hrs.

Cost: $200.00
Meals and lodging will be billed accordingly

Instructor: Sergeant Rachel Blankenship, WVSP

Second Location

Dates: October 19-23, 2026 – **Belington, WV**
Armed Forces Reserve Center, 21 Caisson Drive, Belington, WV 26250
Class begins at 0900hrs.

Cost: $200.00
Meals and lodging will be billed accordingly

Instructor: TFC Mike Neff, WVSP

Long Gun Instructor Course (40 hours Supervisory/Non-Supervisory)

Prerequisite: Must be a current certified law enforcement handgun instructor

The long gun instructor course is designed for current certified law enforcement handgun instructors. This class meets the WV Law Enforcement Training Committee standard and will add the long gun certification to the instructor's resume. The student will provide a duty type shotgun, a carbine/patrol rifle, duty pistol and gear as well as 250 rounds of low brass bird shot, 50 rounds of slug, 500 rounds of carbine/patrol rifle ammo and 200 rounds of pistol ammo. Please do not bring reloaded ammunition to class. Only ammunition of reputable manufacturers will be allowed.

NOTE: Class will be held at the WVSP Academy Range

Dates: September 14-18, 2026 – Class starts at 0830hrs

Cost: $295.00
Meals and lodging will be billed accordingly

Instructors: First Sergeant Chip Donohoe, WVSP
Gary Martin, WVSP (Retired)

ATTEND THE NATION'S MOST ADVANCED AND COMPREHENSIVE

3-DAY HANDS-ON CRIMINAL INTERDICTION WORKSHOP

REGISTER AT WWW.DESERTSNOW.COM OR CALL 405-293-9800

WHERE:
Charleston, West Virginia

WHEN:
August 5 - 7, 2026
0800 to 1700
Doors open at 0730

HOST:
West Virginia State Police
** LEPS Approved Training **

TRAINING ADDRESS:
West Virginia State Police Academy
Professional Development Center
123 Academy Drive
Dunbar, WV 25064

COST:
ONLY $749 PER STUDENT
when registered two weeks in advance

STUDENT COMMENTS:

"The best class I've ever attended in my 27 year career."

"I've been to several interdiction classes and this, by far, blew those out of the water."

*Desert Snow has received hundreds of critiques with similar comments

CLASSROOM (16 HRS)

- Current Threats Facing Our Communities
- An "All Crimes" Approach To Criminal Interdiction
- Combating The Current Opioid Epidemic
- How To Conduct A Legal & Systematic Traffic Stop
- The Mindset Of A Contraband Smuggler
- Steps Taken By Criminals To Avoid Detection
- Recognizing Indicators Of Criminal Activity
- Pertinent Case Law Relating To Criminal Interdiction
- How Defense Attorneys Beat Criminal Cases In Court
- Developing Roadside Conversational Skills
- Spotting Deceptive Behavior
- How and When To Ask For Consent To Search
- Officer Safety Issues Pertaining To Interdiction
- Identifying Common Vehicle Concealments
- Numerous Electronic Compartment Videos
- Appropriate Asset Forfeiture Practices
- Post Arrest Considerations
- Current & Effective Interdiction Resources
- Numerous Recent Interdiction Traffic Stop Videos
- Review Of Multiple Concealment Locations

WORKHOP (8 HRS)

- Hands-On Search of Actual Vehicles
  - Car / Pickup / SUV / Van
- Exposure To Simulated IEDs
- Electronic Compartments Up Close & Personal
- Exposure to Variety of Simulated Contraband
- Exposure to Variety of Concealments
  - Tires
  - Engine Manifolds
  - Drivelines
  - False Batteries
  - Fuel Tanks & More

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution, Our mission is the same as our customers – *Identify. Protect. Preserve.*

Basic Bloodstain Pattern Analysis

This course is designed for crime scene investigators, forensic scientists, detectives, and members of the criminal justice system interested in the application of bloodstain pattern analysis at crime scenes. The course focuses on providing fundamental knowledge of the basic principles of bloodstain pattern analysis and practical application of the learned principles to crime scene investigations.

Students will learn fundamental techniques and procedures in identifying, documenting, and defining bloodstains and patterns at scenes and on evidence through classroom lectures, case study presentations, and practical experimentation. They will learn how to interpret the size, shape, and distribution of bloodstains to determine the mechanism of blood distribution and how to analyze various bloodstains and patterns directly related to the blood-letting events.

The practical exercises provide the opportunity for students to apply the knowledge learned during the lectures. They will participate in experimentation using liquid blood, determine the area of convergence and origin of blood patterns, sequence blood events, and examine bloodstains and patterns on clothing.

Successful completion of the course will provide the student with a strong foundation of how to begin to apply bloodstain pattern analysis to actual crime scene investigations.

COURSE OBJECTIVES

- Demonstrate knowledge of the history and advancements of the discipline of bloodstain pattern analysis
- Understand the physics of bloodstain and pattern formation and develop an understanding of the physical characteristics of bloodstains and patterns
- Determine angles of impact of individual bloodstains utilizing mathematics
- Determine area of convergence and area of origin within a pattern
- Learn how to properly select enhancement chemicals
- Understand how to properly document bloodstains and patterns at the scene, on individuals, and on evidence
- Demonstrate an ability to select samples for serological and DNA testing
- Demonstrate knowledge of the scientific methodology required to complete a full and accurate bloodstains pattern analysis
- Demonstrate knowledge of how to author the technical portion of a report

Case Studies will be presented throughout each day to provide students with how concepts learned during lectures were applied to actual casework.

COURSE INSTRUCTOR

Amy Santoro, PhD, CBPA, CSCSA

Dr. Amy Santoro has worked in forensic science since 2008. She holds a Bachelor of Science degree in Forensics, a Master of Science in Forensic Science, and a PhD in Forensic Sciences. Amy is recognized by the International Association for Identification as a Certified Bloodstain Pattern Analyst, Certified Senior Crime Scene Analyst, and Certified Forensic Photographer. She has over 11 years of experience as a Crime Scene Investigator along with 5 years of experience as a forensic analyst specializing in forensic biology and body fluid identification. She specializes in shooting incident reconstruction and bloodstain pattern analysis.

Dr. Santoro enjoys teaching, and in addition to teaching with Tritech she is an Assistant Professor of Practice at Texas Tech University. She is the owner of Santoro Forensic Consulting, where she works private casework in the areas of bloodstain pattern analysis and shooting reconstruction.
